## Perfume and Fragrances

As the only supplier of Pure Australian Sandalwood oil to the world's top perfume houses, and currently developing new indigenous extracts for the world perfume market, it is natural that Mount Romance has developed its own range of fragrances.

The Santalia fragrance used in our Sandalwood wash off products was created by Master French Perfumer Jean La Porte and an exciting alliance has been formed with one of Europe's most creative minds, Michel Roudnitska, of Art et Parfum (fragrances created for Dior, Hermes, Elizabeth Arden, Marcel Rochas, Mario Valentino). Michel is working with Mount Romance developing unique fragrances featuring indigenous Australian extracts, including those to be featured as part of the Tribal Dreaming Relaxation experience.
