Frosty Peach

Price per Unit (piece): P585.00

Frosty Peach

ALUMINIUM FREE

A great by-product of sandalwood oil extraction is sandalwood resin. Research has shown that the resin is suitable for use as a colour fixative for lipsticks. This eliminates the need for aluminium based dyes which are used in the majority of lipsticks to reduce the need for constant re-application.

These lipsticks use Australian sandalwood oil to provide a natural moisturising base, protecting your lips from the damaging effects of sun and dry weather.
