House of Romance

Deodorant

Price per Unit (piece): P550.00

Deodorant

75mL

HDPE bottle

Roller ball assembly

Screw cap

Aluminium free roll-on. The fresh fragrance of Santalia and natural anti-microbial properties of Australian Sandalwood combine with Farnesol and Irgasan (Triclosan) to refresh and gently inhibit odour-causing bacteria while preserving your natural body flora. Santalia fragrance will impart a lasting, pleasant aroma. Unlike anti-perspirants which contain aluminium, Sandalwood Deodorant is mild enough to be used directly after underarm shaving.

Note: Anti-perspirants containing aluminium generally give longer protection. Customers should note that they can expect a maximum of 6-8 hours of protection with Sandalwood Deodorant. As a general rule it will need to be applied more frequently.

Ingredients (INCI): Aqua (Water), Alcohol, Propylene Glycol, Fragrance, Polysorbate 20, Methylcellulose, Fusanus spicatus (Australian Sandalwood) Wood Oil, Methylisothiazolinone (and) Methylchlorisothiazolinone, Triclosan, Farnesol.

NEW FORMULATION vs OLD:

Preservative change.
